

## PRESS RELEASE

### **The Information Society S.A. signed a contract with the alliance of companies **ATKOSoft – Unisystems - ORCO**, for the implementation of the project “Provision of Training Services to the Regional Health Network of Cyclades”**

Athens, February 2007,

The Information Society S.A. for the benefit of the 1<sup>st</sup> RNHS (Regional National Health System) of South Aegean, signed a contract with the alliance of companies ATKOSoft – Unisystems – ORCO, for the implementation of the project “Provision of Training Services to the Regional Health Network of Cyclades”

The project aims to provide training to the personnel of the 1<sup>st</sup> RNHS of South Aegean for the integrated health information system and its subsystems.

Training activities cover the application of IT systems in the Health sector towards supporting several business processes that require the knowledge of IT systems e.g. financial and business coordination, medical applications, laboratory applications etc.

Training activities consist in theoretical as well as practical training:

- Of the 1<sup>st</sup> RNHS in the use of applications of the Integrated Health Information System that operates in the RNHS
- Of the administrative personnel (including personnel of regional Health Centres) in the administrative and financial subsystems
- In new processes and procurement practices (e.g. electronic transactions), accounting systems, new codifications etc emphasizing in the way that these transactions are incorporated into the business processes of Health Providers
- In the administration of medical record data
