## ATKOSoft's Frontis<sup>®</sup> S/W Suite among the 33 leading applications of eHealth in Europe

Athens, 27-5-2003

In the European Ministerial Conference *eHealth 2003: ICT (Information and Communication Technology for the Health)*, which took place in Brussels, the 33 most outstanding applications of Health in all European countries were presented, combining innovative ideas with advanced technology.

Among the 33 applications distinguished from the 179 submitted, was the **Frontis<sup>®</sup>** software suite "Hospital at Home" of ATKOSoft, that has been implemented with complete success in the Diagnostic and Therapeutic Centre of Athens "YGEIA".

Dr. Hlias Papazisis, Director of the Home Care Department at YGEIA Hospital, and Yiannis Samiotakis, Director of Project & Business Development Department of ATKOSoft, presented to the Ministers of Health and Telecommunications of 28 countries, the way of operation of the Home Care Department in YGEIA Hospital, based on the **Frontis<sup>®</sup>** software suite, as well as the advantages offered to the patients of the organisation.

The Greek Minister of Health Mr. Stefanis and the Greek Undersecretary of Transports and Communications Mr. Stratakis, that visited the booth of YGEIA and ATKOSoft, expressed particular interest and praised the YGEIA Hospital for the social work that carries out as well as the ATKOSoft for the **Frontis<sup>®</sup>** application.

Mr. Christian Paggetti, Biomedical Engineer and Evaluator, congratulated the YGEIA Hospital as well as ATKOSoft for the advanced Home Care Services, that impressed all the evaluators.

The Home Care Department of YGEIA hospital, received the second place in its type of application, rated after "Action of Regional Level" in Italy, and Mr. Jean Claude Healy, Head of Unit (Information Society Technologies: Systems and Services for the Citizen, Applications relating to health), granted the honorary title.

With the **Frontis<sup>®</sup>** application of **ATKOSoft** for the "**Home Care Services**", the YGEIA Hospital can provide complete hospital - level services in patients homes.

The Home Care Department of YGEIA Hospital, after the installation of **Frontis<sup>®</sup>** in 2000, has realised up to now more than 40.000 resident visits, for 4.000 patients.

ATKOSoft is a private Greek company involved in the development of leading edge Software, via the use of the latest technology in software development, specialised in the Medical Informatics Sector, Telemedicine, Statistics, applications, e-Commerce and Internet.
